Sheridan Blau, Teachers College, Columbia University. The Ladder, Andrew Bernard, 2021-02-19. Foreword by Colonel Dame Kelly Holmes. Regardless of one's plans for the future, many people's careers are founded on a series of chance encounters, experiences, and serendipity. School, college, university, jobs, family, sports, hobbies, friends, relationships: these are all fertile grounds for career-related conversations and explorations. What if we, teachers, guides, mentors, parents, and peers, started to notice these seemingly unconnected happenings and indeed started to engineer and encourage them to happen? Using the mantra "every adult is a career teacher," The Ladder will inspire teachers to explicitly link their subject area to students' futures, both in school and outside its walls, and support them in doing so. Bernie draws upon his 30-year career in education and business development to bring clarity, focus, and ideas to educators as to how they can best start students on their own ladders to success. Ultimately, in writing this book, Bernie's aim is to bring young people's futures to life with some personal skills, reflection, and forward planning designed to help them as they embark on their fulfilling futures, regardless of their upbringing, academic achievements, or ethnic background. *Classroom Teaching Skills*, James Michael Cooper, 1986.
