GCSE ENGLISH LANGUAGE

Paper 1 Explorations in creative reading and writing

Monday 5 June 2023

Morning

Time allowed: 1 hour 45 minutes

Materials

For this paper you must have:

- **Source A** – provided as a separate insert.

Instructions

- Answer **all** questions.
- Use **black ink or black ball-point pen**.
- Fill in the boxes at the top of this page.
- You must answer the questions in the spaces provided.
- Do not write outside the box around each page or on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.
- You must refer to the insert booklet provided.
- You must **not** use a dictionary.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 80.
- There are 40 marks for **Section A** and 40 marks for **Section B**.
- You are reminded of the need for good English and clear presentation in your answers.
- You will be assessed on the quality of your **reading** in **Section A**.
- You will be assessed on the quality of your **writing** in **Section B**.

Advice

- You are advised to spend about 15 minutes reading through the source and all five questions you have to answer.
- You are advised to plan your answer to **Question 5** before you start to write.
- You should make sure you leave sufficient time to check your answers.

Gcse June 2014 Question Papers:

Exams, Tests, Revision Pocketbook Mike Gershon, 2016-03-16 Teaching exam classes carries a weight of responsibility for all teachers. They know that offering their students the best possible education is not about the narrow diet of teaching to the test; they also know that good test scores and excellent exam results are fundamental. So how do teachers equip their pupils for exam success while at the same time ensuring high standards of teaching and learning? The *Exams Tests Revision Pocketbook* looks at how to do just that. Rooted firmly in experience and research, this is a practical how-to Pocketbook aimed at classroom teachers. It provides strategies, activities, and techniques for successfully teaching examination classes. Whether those are related to using time efficiently, cognitive psychology, and motivation theory, unpicking great exam technique, or exploring the best use of past papers, mark schemes, and examiners' reports, they are always accessible and can be readily imported for immediate classroom application. The Pocketbook is highly illustrated. Cartoons, diagrams, and visual prompts support the text and cement the ideas.

Studying Fiction Jessica Mason, Marcello Giovanelli, 2021-04-19 *Studying Fiction* provides a clear rationale alongside ideas and methods for teaching literature in schools from a cognitive linguistic perspective. Written by experienced linguists, teachers, and researchers, it offers an overview of recent studies on reading and the mind, providing a detailed guide to concepts such as attention, knowledge, empathy, immersion, authorial intention, characterisation, and social justice. The book synthesises research from cognitive linguistics in an applied way so that teachers and those researching English in education can consider ways to approach literary reading in the classroom. Each chapter draws on the latest research in cognitive stylistics and cognitive poetics, discusses a range of ideas related to the whole experience of conceptualising teaching fiction in the classroom, and enacting it through practice, provides activities, and reflection exercises for the practitioner, encourages engagement with important issues such as social justice, emotion, and curriculum design. Together with detailed suggestions for further reading and a guide to available resources, this is an essential guide for all secondary English teachers, as well as those teaching and researching in primary and undergraduate phases.

Food and Cooking Skills Education Anita Tull, 2018-01-29 *Food and Cooking Skills Education* FCSE is a complex mix of policy and practicality, educational theory, and pedagogy, classroom and government policy. This book shows how FCSE has been at the centre of a tussle between education and policy for decades. It reviews how FCSE has grappled with various significant issues of concern that threaten to marginalise it and pose problems for educational practicalities as expectations are increased but resources are squeezed. It assesses the debate about the significance and importance of acquiring practical food and cooking skills in a society where the purchase of ready-made food has become commonplace and public knowledge of where our food comes from is noticeably lacking. This has contributed to the escalating incidence of diet-related diseases and the attendant cost to society and threatened environmental sustainability. In turn, governments have reacted by proposals to make practical cooking skills a statutory National Curriculum subject as part of the armoury for tackling such costs. Based

on detailed research conducted across England and Wales as well as comparisons with thirty five other countries or states the author makes recommendations for policy to manage this challenge facing contemporary society

The Art of Uncertainty David Spiegelhalter,2025-03-04 Named a Best Book of the Year by Forbes and The Economist From our greatest living statistical communicator Tim Harford comes an invaluable data driven guide for understanding and learning to embrace risk and uncertainty in our daily lives How dangerous is our diet How much of sports falls into the realm of luck When authorities categorize a given event as highly likely how likely is that really Whether we re trying to decide if the benefits of a new medication are worth the chance of side effects or if artificial intelligence truly threatens humanity our lives are riddled with uncertainties both everyday and existential yet it can be difficult to know how to properly weigh all those unknowns Luckily for us renowned statistician David Spiegelhalter has spent his career dissecting data to resolve the apparently random and decode the many decisions we face with imperfect information In *The Art of Uncertainty* he shows how we can become better at dealing with what we don t know to make smarter choices in a world so full of puzzling variables In lucid lively prose Spiegelhalter guides us through the principles of probability illustrating how they can help us think more analytically about everything from medical advice to sports to climate change forecasts He demonstrates how taking a mathematical approach to phenomena we might otherwise attribute to fate or luck can help us sort hidden patterns from mere coincidences better evaluate cause and effect and predict what s likely to happen in the future Along the way we learn how a misinterpretation of a probability contributed to the infamous Bay of Pigs fiasco why a ship twice the size of the Titanic sank without a trace and why we can be so confident that no two properly shuffled decks of cards have ever been in the same order Sparkling with wit and fascinating real world examples this is an essential guide to navigating uncertainty while also retaining the humility to admit what we don t or simply cannot know

Addressing Special Educational Needs and Disability in the Curriculum: History Richard Harris,Ian Luff,2017-04-11 The SEND Code of Practice 2015 has reinforced the requirement that all teachers must meet the needs of all learners This topical book provides practical tried and tested strategies and resources that will support teachers in making history lessons accessible and exciting for all pupils including those with special needs The authors draw on a wealth of experience to share their understanding of special educational needs and disabilities and show how the history teacher can reduce or remove any barriers to learning Offering strategies that are specific to the context of history teaching this fully revised edition will enable teachers to Make history education accessible and engaging to pupils of all abilities Create an inclusive classroom environment that responds to the emotional needs of the class and nurtures a culture of learning Develop inclusive practical demonstration and role play techniques to aid conceptual understanding Set assessment objectives Deploy in class support effectively An invaluable tool for continuing professional development this text will be essential for teachers and their teaching assistants seeking guidance specific to teaching history to all pupils regardless of their individual needs This book will also be of interest to SENDCOs

senior management teams and ITT providers In addition to practical activities and supporting material contained in the book there are also free online resources for readers to download and use in the preparation of successful inclusive lessons for all pupils

Learning to Teach Geography in the Secondary School Mary Biddulph, David Lambert, David Balderstone, 2015-05-20 Learning to Teach Geography in the Secondary School has become the widely recommended textbook for student and new teachers of geography It helps you acquire a deeper understanding of the role purpose and potential of geography within the secondary curriculum and provides the practical skills needed to design teach and evaluate stimulating and challenging lessons It is grounded in the notion of social justice and the idea that all students are entitled to a high quality geography education The very practical dimension provides you with support structures through which you can begin to develop your own philosophy of teaching and debate key questions about the nature and purpose of the subject in school Fully revised and updated in light of extensive changes to the curriculum as well as to initial teacher education the new edition considers the current debates around what we mean by geographical knowledge and what is involved in studying at Masters level Key chapters explore the fundamentals of teaching and learning geography Why we teach and what to teach Understanding and planning the curriculum Effective pedagogy Assessment Developing and using resources Fieldwork and outdoor learning Values in school geography Professional development Intended as a core textbook and written with university and school based initial teacher education in mind Learning to Teach Geography in the Secondary school is essential reading for all those who aspire to become effective reflective teachers Praise for previous editions of Learning to Teach Geography in the Secondary School This is a practical and visionary book as well as being superbly optimistic It has as much to offer the experienced teacher as the novice and could be used to reinvigorate geography departments everywhere Practical activities and ideas are set within a carefully worked out authoritative conceptual framework The Times Educational Supplement This is a modern powerful relevant and comprehensive work a standard reference for many beginning teachers on geography initial teacher training courses Educational Review
