

## High School Expository Essay

In the media center-in the media center there will be two <sup>rooms</sup> where you can look for example expository papers. First of all, ask the media specialist if they have archived compositions. If they do, make some copies of the ones that fit your needs. If they do not, then you can move to the reference section of the library. There will be books, which have example compilations of different types of writings. Sit down and review these models.

From a peer-if you have a peer who is good at writing, then you have instant and nearby help. Ask your peer if you may use one of his or her old pieces for a model. You can use it and later on return the favor for your friend. Make sure your friend knows that you are not going to copy the paper, just use it as a model for guidance.

Online-you can find every sample of writing in existence online. There are thousands out there. You want to proceed online with caution. You will need to know that the example is properly written and that the person who wrote it was qualified to write it. Modeling after a bad paper is a bad move, which will equal a very bad grade.

From the textbook-textbooks, online and in print, all have supplemental materials in the back of the textbook. All you have to do is turn to the back of your writing or your grammar book and you will find what you need.

A writing company-you can hire a writing company to give you examples of the high school papers that you need. This little-known fact can result in a professional style expository essay. The price will not be too high and you can rest easy knowing that a professional wrote the essay. Partial examples will be on the business website if you do not want to buy a sample one.
