and politics is a continuing theme explored in writings on prison scenes Ossian and public private dramaturgy in grand opera David Charlton has written widely on French music and opera topics for over 25 years The selection of his articles presented here focuses on the period 1730 1830 when Paris was a hotbed of influential ideas in music and music theatre with many of these ideas taken up by foreign composers This volume assesses the French contribution to the development of Classical and Romantic styles and genres which has hitherto not received the attention it deserves *Havet's Practical French grammar ...
