J. Katz,Karen Dee Michalowiz,2020-03-02 Contains 11 modules consist of a number of activities designed to demonstrate the
use of the history of mathematics in the teaching of mathematics Objectives of the Modules To enable students to develop a
much richer understanding of mathematics and its applications by viewing the same phenomena from multiple mathematical
perspectives To enable students to understand the historical background and connections among historical ideas leading to
the development of mathematics To enable students to see how mathematical concepts evolved over periods of time To
provide students with opportunities to apply their knowledge of mathematics to various concrete situations and problems in a
historical context To develop in students an appreciation of the history connected with the development of different
mathematical concepts To enable students to recognize and use connections among mathematical ideas To enable students
to understand how mathematical ideas interconnect and build on one another to produce a coherent whole To lead students
to recognize and apply mathematics in contexts outside of mathematics Publisher *Algebra 2* Ron Larson,1993
