Artistic Lives Kirsten Forkert,2016-04-15 Artistic Lives examines cultural production as a non standard self directed and frequently unpaid activity which is susceptible to developments that affect the availability of unstructured time It engages with discourses which have historically had little to do with the arts including urban sociology and social policy research to explore the social conditions and identities of ordinary artists revealing the importance of the cost of living or access to housing benefits or employment in determining who is able to become an artist or sustain an artistic career The book thus challenges recent policy discourses that celebrate the ability of cultural producers to create something from nothing and more generally the myth of creativity as an individual phenomenon divorced from social context Presenting rich interview material with artists and arts professionals in London and Berlin together with ethnographic descriptions Artistic Lives engages with debates surrounding Post Fordism

gentrification and the nature of authorship to raise challenging questions about the function of culture and the role of cultural producers within contemporary capitalism An empirically grounded exploration of the identity of the modern artist and his or her ability to make a living in neoliberal societies Artistic Lives will be of interest to students and scholars researching urban studies the sociology of art and creative cultures social stratification and social policy India's New Independent Cinema Ashvin Immanuel Devasundaram,2016-06-10 This is the first ever book on the rise of the new wave of independent Indian films that is revolutionising Indian cinema Contemporary scholarship on Indian cinema so far has focused asymmetrically on Bollywood India s dominant cultural export Reversing this trend this book provides an in depth examination of the burgeoning independent Indian film sector It locates the new Indies as a glocal hybrid film form global in aesthetic and local in content They critically engage with a diverse socio political spectrum of state of the nation stories from farmer suicides disenfranchised urban youth and migrant workers to monks turned anti corporation animal rights agitators This book provides comprehensive analyses of definitive Indie new wave films including Peepli Live 2010 Dhobi Ghat 2010 The Lunchbox 2013 and Ship of Theseus 2013 It explores how subversive Indies such as polemical postmodern rap musical Gandu 2010 transgress conventional notions of traditional Indian values and collide with state censorship regulations This timely and pioneering analysis shows how the new Indies have emerged from a middle space between India s globalising present and traditional past This book draws on in depth interviews with directors actors academics and members of the Indian censor board and is essential reading for anyone seeking an insight into a current Indian film phenomenon that could chart the future of Indian cinema **Annual Report - Indian Council of Social Science Research** Indian Council of Social Science Research,2013 **Annual Report of the Commissioner of Education** United States. Office of Education,1908 Arab Middle Class ,2014 The present report studies the Arab middle class an important social group that is relatively little understood despite the fundamental role it has played in shaping the economic and social development outcomes in the Arab region This report contributes to the ongoing debate about factors that led to the Arab uprisings and the difficult transitions to democracy that followed the departure of long standing dictators by marking elements influencing middle class allegiances specifically those that weakened their well established alliances with ruling regimes The report is motivated by the conviction on the basis of past development experiences that a new Arab development model can only succeed if the middle class plays a lead role in designing and implementing processes of economic transformation and political transition Studying the middle class is therefore crucial to interpreting the past understanding the present and reading the potential future development prospects of the Arab region This report introduces three novel approaches aimed at charting a path for sustaining empowering and enlarging the middle class The first is related to the measurement of the middle class based on a definition that takes into account both the quantity and quality of their consumption expenditure The second relates to the profiling of the Arab middle class using variables such as education employment and mobility in

addition to multidimensional poverty The third novel approach lies in using these results to provide a narrative of the socioeconomic context of the decade leading up to the uprisings from a middle class perspective The report concludes that the empowerment of the Arab middle class could pave a way out of the current development and governance debacle towards an Arab developmental State Publisher s description **Global Assessment Report on Disaster Risk Reduction 2015** United Nations.
