History of mathematics education is treated in the book as a part of social history. This book grew out of the presentations delivered at the International Congress on Mathematics Education in Hamburg. Modern development and growing internationalization of mathematics education made it clear that many urgent questions benefit from a historical approach. The chapters present viewpoints from the following countries: Belgium, Brazil, Cambodia, China, Cyprus, Germany, Iceland, Italy, the Netherlands, Russia, Spain, and Sweden. Each chapter represents significant directions of historical studies. The book is a valuable source for every historian of mathematics education and those interested in mathematics education and its development. *Reporting to the Public*, 1983 Reviews of National Policies for Education: Estonia 2001 OECD, 2001-06-11 OECD's 2001 review of Estonia's education system The Mathematics Teacher, 1963 **Lessons from Estonia's Education Success Story** Peeter Mehisto, Maie Kitsing, 2022-07-19 This book explores how Estonia, despite high levels of poverty, has transformed its education system to become Europe's top performer on PISA (Programme for International Student Assessment). The engaging narrative uncovers reforms, mistakes, and lessons learnt that have been harnessed to create a high-performing, high-equity education system which includes social and education policies fostering equity, inclusion, learner autonomy, as well as schoolteacher and principal professionalism, autonomy, and responsibility. It unearths how easy access to a wide range of data, such as perceptions of well-being, autonomy, and connectedness, in addition to examination results, builds internal and external accountability and contributes to collective stakeholder efficacy. Grounded in research from Estonia and beyond, this is an ideal read for educators, administrators, academics, university students, change agents, and parents interested in school system improvement. As equity, equality, and inclusion are core drivers of the Estonian education system, this book would also be of interest to those working in social justice, inclusion, and diversity. **International Handbook on Education Development in the Asia-Pacific** Wing On Lee, Phillip Brown, A.
