**Freakonomics** Steven D. Levitt, Stephen J. Dubner, 2011-09-20 Here s a first year book that encourages critical thinking and sparks discussion Freakonomics addresses current social questions that students will enjoy arguing about both in the classroom and over coffee in the student union Which is more dangerous a gun or a swimming Why do drug dealers still live with their mothers What makes a perfect parent These may not sound like typical questions an economist asks but Levitt is not your typical economist He studies the mysteries of everyday life from cheating and crime to sports and child rearing and his conclusions regularly turn conventional wisdom on its head helping students develop a critical eye to many things that are presented as fact Freshman Common Read Appalachian State University Virginia Commonwealth University University of Louisville

**Freakonomics Rev Ed** Steven D. Levitt, Stephen J. Dubner, 2010-02-17 Here s a first year book that encourages critical thinking and sparks discussion Freakonomics addresses current social questions that students will enjoy arguing about both in the classroom and over coffee in the student union Which is more dangerous a gun or a swimming Why do drug dealers still live with their mothers What makes a perfect parent These may not sound like typical questions an economist asks but Levitt is not your typical economist He studies the mysteries of everyday life from cheating and crime to sports and child rearing and his conclusions regularly turn conventional wisdom on its head helping students develop a critical eye to many things that are presented as fact Freshman Common Read Appalachian State University Virginia Commonwealth University University of Louisville

Freakonomics Rev Ed Steven D. Levitt, Stephen J. Dubner, 2006-10-17 Which is more dangerous a gun or a swimming pool What do schoolteachers and sumo wrestlers have in common Why do drug dealers still live with their moms How much do parents really matter How did the legalization of abortion affect the rate of violent crime These may not sound like typical questions for an economist to ask But Steven D Levitt is not a typical economist He is a much heralded scholar who studies the riddles of everyday life from cheating and crime to sports and child rearing and whose conclusions turn conventional wisdom on its head Freakonomics is a groundbreaking collaboration between Levitt and Stephen J Dubner an award winning author and journalist They usually begin with a mountain of data and a simple question Some of these questions concern life and death issues others have an admittedly freakish quality Thus the new field of study contained in this book freakonomics Through forceful storytelling and wry insight Levitt and Dubner show that economics is at root the study of incentives how people get what they want or need especially when other people want or need the same thing In Freakonomics they explore the hidden side of well everything The inner workings of a crack gang The truth about real estate agents The myths of campaign finance The telltale marks of a cheating schoolteacher The secrets of the Klu Klux Klan What unites all these stories is a belief that the modern world despite a great deal of complexity and downright deceit is not impenetrable is not unknowable and if the right questions are asked is even more intriguing than we think All it takes is a new way of looking Freakonomics establishes this unconventional premise If morality represents how

we would like the world to work then economics represents how it actually does work It is true that readers of this book will be armed with enough riddles and stories to last a thousand cocktail parties But Freakonomics can provide more than that It will literally redefine the way we view the modern world

**Economics Made Fun** N. Aydinonat, Jack Vromen, 2017-10-02  
Best selling books such as Freakonomics and The Undercover Economist have paved the way for the flourishing economics made fun genre While books like these present economics as a strong and explanatory science the ongoing economic crisis has exposed the shortcomings of economics to the general public In the face of this crisis many people including well known economists such as Paul Krugman have started to express their doubts about whether economics is a success as a science As well as academic papers newspaper columns with a large audience have discussed the failure of economic to predict and explain ongoing trends The emerging picture is somewhat confusing economics made fun books present economics as a method of thinking that can successfully explain everyday and freaky phenomena On the other hand however economics seems to fail in addressing and explaining the most pressing matters related to the field of economics itself This book explores the confusion created by this contradictory picture of economics Could a science that cannot answer its own core questions really be used to explain the logic of everyday life This book was originally published as a special issue of the Journal of Economic Methodology
