**Read the passage carefully and answer the following questions:**

The term 'diaspora' is used to refer to people who have left their homelands and settled in other parts of the world, either because they were forced to do so or because they wanted to leave on their own. The word is increasingly used for such people as a collective group and/or a community. The world has seen many diasporas but scholars have been studying the phenomenon with great interest only in recent decades.

Among the great diasporas of history is that of the Jewish people, who were forced to leave their lands in ancient times. The movement of Aryans from Central Europe to the Indian sub-continent thousands of years ago is also a noteworthy diaspora, although the causes of this diaspora are unclear. In twentieth century history, the Palestinian diaspora has attracted a lot of attention and been a cause of concern for world leaders because of the plight of Palestinians. There have been massive diasporas in Africa, too, over the centuries, either because of war or because of the ravages of nature. But the chief reason why the phenomenon of diaspora is attracting so much attention now is globalization.

*The Routledge Handbook of English Language Education in Bangladesh* Shaila Sultana, M. Moninoor Roshid, Md. Zulfeqar Haider, Mian Md. Naushaad Kabir, Mahmud Hasan Khan, 2020-12-17 This Handbook is a comprehensive overview of English language education in Bangladesh. Presenting descriptive theoretical and empirical chapters as well as case studies, this Handbook on the one hand provides a comprehensive view of the English language teaching and learning scenario in Bangladesh and on the other hand comes up with suggestions for possible decolonisation and de-eliticisation of English in Bangladesh. The Handbook explores a wide range of diverse endogenous and exogenous topics all related to English language teaching and learning in Bangladesh and acquaints readers with different perspectives operating from the macro to the micro levels. The theoretical frameworks used are drawn from applied linguistics, education, sociology, political science, critical geography, cultural studies, psychology and economics. The chapters examine how much generalisability the theories have for the context of Bangladesh and how the empirical data can be interpreted through different theoretical lenses. There are six sections in the Handbook covering different dynamics of English language education practices in Bangladesh: from history, policy and practice to assessment, pedagogy and identity. It is an invaluable reference source for students, researchers and policy makers interested in English language, ELT, TESOL and applied linguistics.
