Motorcycle Illustrated, 1909 The Motorcycle Industry in New York State, Second Edition Geoffrey N. Stein, 2023-05-01. The Motorcycle Industry in New York State is the first book to focus on the over 120 year history of motorcycle construction in the Empire State. Beginning with experimental motorized bicycles in the 1890s, New York's motorcycle industry experienced its golden years for innovation and production in the 1900s and 1910s. From that promising start, the state's motorcycle industry declined when the public adopted automobiles for everyday transportation. However, since the late twentieth century, the rise of custom one-of-a-kind motorcycles has brought a new focus toward the industry. Also, a new effort to reach mass production comes in the form of e-motorcycles and e-bicycles that are being designed in New York. The first edition published in 2001 was the product of nine years of research by New York State Museum NYSM curator Geoffrey N. Stein. This second edition has been revised and updated by NYSM Senior Historian and Curator Brad L. Utter. For anyone who loves motorcycles or for those enthusiasts/collectors that wish to know more about these unique makers and the bikes that they created, *The Motorcycle Industry in New York State* is the ideal companion.
