Mindfulness Addiction Manual:

Leading a Mindfulness-Based Recovery Group Laurie A. Silver, Laurie a Silver Licsw, 2016-05-10 This manual for leading a Mindfulness Based Recovery Group is intended for therapists including substance abuse counselors who are comfortable with a cognitive behavioral and solution focused therapy style and have some familiarity with mindfulness practice The manual provides directions and scripts that allow a clinical group leader to welcome treatment group members to mindfulness practice as a tool for recovery from an addiction or other compulsive behavior The skill building outlined in this guide is presented in a group setting that supports self efficacy and healthful interdependence in a manner that is both individually affirming and mutually respectful There is an expectation that the clinician who uses this manual to lead a treatment group will also engage in daily mindfulness practice The group leader is asked to commit to the idea presented at each session that five minutes daily devoted to following the breath is both a minimum and good enough practice
