**How Superheroes Model Community** Nathan Miczo, 2016-08-30 From the perspectives of positive psychology and positive communication superheroes are often depicted as possessing virtues and serving as inspirational exemplars However many of the virtues enumerated as characterizing the superhero e g courage teamwork creativity could just as easily be applied to heroes of other genres To understand what is unique to the superhero genre How Superheroes Model Community Philosophically Communicatively

Relationally looks not only to the virtues that animate them but also to the underlying moral framework that gives meaning to those virtues. The key to understanding their character is that often they save strangers and they do so in the public sphere. The superhero's moral framework therefore must encompass both the motivation to act to benefit others rather than themselves especially people to whom they have no relational obligation and to preserve the public sphere against those who would disrupt it. Given such a framework, Nathan Miczo argues that superheroes are not and could not be loners. They constantly form team-ups, super teams, alliances, partnerships, take on mentorship roles, and create sidekicks. Social constructionist approaches in the communication field argue that communication in part works to shape and create our social reality. Through this lens, Miczo proposes that superheroes maintain themselves as a community through the communicative practices they engage in.
