Introduction

The quality of life is determined by the Health and Diseases. There are various ailments /conditions that put life in trouble which could range from systemic disorders to cancer. In the present context, metabolic disorder type 2 diabetes mellitus was discussed. Diabetes is a metabolic disorder that results when sufficient insulin is not produced by the pancreas (WHO Report, 2009).

This condition also results if insulin is not utilized by the body (WHO Report, 2009). Insulin is type of hormone that has control on blood sugar (WHO Report, 2009). The level of blood sugar raises and leads to Hyperglycaemia, when the diabetes is not manageable and finally causes destruction to blood vessels and nerves (WHO Report, 2009).

There are two types of Diabetes most common in the population. They are type 1 and type 2. Type 2 diabetes also known as non-insulin-dependent or adult-onset occurs when body fails to use insulin. Nearly 90% of diabetic individuals are present globally which is the merely the reflection of the result of physical inactivity and over body weight (WHO Report, 2009). Although, the symptoms of Type 2 diabetes are same as that of Type 1, it may take many years to get diagnosed after the onset (WHO Report, 2009).

Type 2 diabetes most frequent in adults but in the modern society children are also falling victims to this disorder. The present day life style is exposing wide range of individuals to develop various disorders where type 2 Diabetes is the frequent. The causes of this disorder are not completely understood although clinical data persists. This could be due to the existence of multiple factors that could predispose the people to diabetes.

The inclusion criteria for type 2 diabetic individuals could be elevated glucose levels observed in fasting or post lunch sessions. The exclusion criteria would for those with normal values. The parameters that help in understanding the development of type 2 diabetes may be those that reflect levels of blood glucose, insulin, lipid, other suspected agents with genetic etiology etc. There is need to carry out a thorough literature review.
