resonated with me deeply David summarises core concepts and delivers insights and practical tips drawn from his own experience this beautifully written book is both easy to action and devoid of jargon Divinia Knowles Leadership Coach and Founder of London COO Roundtable This book is an absolute goldmine of advice and lessons learned David has a wonderful way of simplifying complex matters in a fun and accessible way So many oh yeah moments as you read this gem of a book it is relentlessly interesting with learnings from cover to cover Dan Hulme CEO at The Sports Trust It s very easy to find a book on starting out on an entrepreneurial journey but incredibly hard to find one that is relatable and relevant to your particular journey David takes the best elements of start up advice and literature and summarises it perfectly into practical scenarios that will help any entrepreneur on their path to success it s like a textbook for CEO s I found it thought provoking and engaging from one of the most pragmatic and modest minds in the biz Matt Fox Snaptrip Group CEO *It's All Politics* Kathleen Kelley Reardon, Ph.D.,2011-05-25 From *It s All Politics* Like business in general politics is not a spectator sport You cannot afford to be apolitical at work if you have any aspirations for advancement The only way to avoid politics is to avoid people by finding an out of the way corner where you can do your job Of course it s the same job you ll likely be doing for the rest of your career In any job when you reach a certain level of technical competence politics is what makes all the difference with regard to success At that point it is indeed all politics Everyday brilliant people take a backseat to their politically adept colleagues by failing to win crucial support for their ideas Sometimes politics involves going around or bending rules but more typically it s about positioning your ideas in a favorable light and knowing what to say and how and when to say it Keep in mind that people benefit from perpetuating the image of politics as something you either know or you don t Ignore them Political acumen is largely learned from observation And then it s a matter of practice practice practice When a journalist suggested that golfing great Gary Player was very lucky he replied It s funny but the more I practice the luckier I get The same is true of politics An indispensable guide to mastering the ins and outs of office politics the single most important factor in getting ahead in your career As management professor and consultant Kathleen Reardon explains in her new book *It s All Politics* talent and hard work alone will not get you to the top What separates the winners from the losers in corporate life is politics As Reardon explains the most talented and accomplished employees often take a backseat to their politically adept coworkers losing ground in the race to get ahead sometimes even losing their jobs Why Because they ve failed to manage the important relationships with the people who can best reward their creativity and intelligence To determine whether you need a crash course in Office Politics 101 ask yourself the following questions Do I get credit for my ideas Do I know how to deal with a difficult colleague Do I get the plum assignments Do I have a mentor Do I say no gracefully and pick my battles wisely Am I in the loop Reardon has interviewed hundreds of employees from successful veterans to aspiring hopefuls examining why some people who work hard and effectively at their jobs fall behind while those who are adept at reading the office tea leaves forge ahead Being politically savvy doesn t mean being unethical or devious At heart it s about listening to and

relating to others and making choices that advance everyone's goals Like it or not when it comes to work it's all politics And politics is all about knowing what to say when to say it and who to say it to Scaling Your Startup Peter S. Organizations such as the Sierra Club and Friends of the Earth are familiar to anyone with an interest in environmental protection As activist groups they played by the same rules for years But in 1994 the rules changed With the Republican takeover of Congress environmental groups faced sweeping changes in federal policies that threatened the enforcement of environmental laws As these organizations intensified their efforts to meet these challenges they also altered their electoral strategies and political spending patterns This book traces those actions and shows what they mean for the future of environmentalism in the political arena While environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that compete with them for the attention of public and politicians The Green Agenda in American Politics offers a new look at environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context Drawing on interviews with activists from a wide range of organizations Robert Duffy describes what environmental groups actually do when lobbying officials or the public He examines activity at both national and state levels to emphasize their growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy advertising and public education campaigns Duffy also tracks emerging trends in interest group politics and provides an overview of activism through the early 1990s He then documents the emergence of more aggressive action after 1994 such as providing campaign services to candidates and mounting voter registration drives He also shows how state and local groups have begun to play more important roles in the wake of the rollback of federal environmental regulations Brimming with new insights into interest group lobbies in general and contemporary environmental groups in particular Duffy s book opens a new window on the influence of Big Money in the supposedly democratic electoral process
