Dalin, Matthew Levering, 2008 The twentieth century will forever be marked by the horrific event of the Shoah As a young man the future John Paul II witnessed this horror during the Nazi occupation of Poland His pontificate achieved a number of groundbreaking steps in the Catholic Church's relationship with the Jewish people This book both reflects upon John Paul II's achievements and seeks to continue the theological and philosophical dialogue that he cherished By examining together the words and deeds of John Paul II eminent Jewish and Catholic scholars exemplify in this volume the dialogue that John Paul fostered Together Jews and Catholics can encourage each other in the tasks of knowing the Creator living a life worthy of the created dignity that human beings possess and defending the vulnerable among us As Dostoevsky

The Unchanging Truth of God? Crucial Philosophical Issues for Theology Thomas G. Guarino,2022-02-18

It has long been a cornerstone of Catholic belief that Christians can be intelligent and creative thinkers inquisitive seekers after truth as well as men and women of ardent faith Catholics are entirely committed then to the claim that human rationality and religious faith are complementary realities since they are equally gifts of God But understanding precisely how faith and reason cohere has not always been a smooth path At times theology has allowed philosophy to become the leading and baleful partner in the faith reason relationship thereby lapsing into rationalism or relativism At other times theology has been tempted by fideism with philosophy now regarded as little more than a pernicious intruder corrupting Christian faith life and thought The essays in this volume display how Catholicism understands the proper confluence between philosophy and theology between human rationality and Christian faith between the natural order and supernatural grace To illustrate these points the book draws on a long line of Christian thinkers Origen Augustine Anselm Aquinas and in our own day Fides et Ratio of John Paul II and the Regensburg Address of Benedict XVI How is theology always a Jewgreek enterprise to borrow a term from Jacques Derrida always a combination of the biblical Hebraic and philosophical Hellenic traditions Why is one particular element of philosophy metaphysics essential for the intelligibility and clarity of Catholic theology Why is this so much the case that John Paul II could state emphatically a philosophy which shuns metaphysics would be radically unsuited to the task of mediation in the understanding of Revelation But theology cannot simply be about dialogue with philosophers of yesteryear Theology must constantly incorporate fresh thinking and remain in lively conversation with an extensive variety of contemporary perspectives This book displays how reciprocity and absorption has been characteristic of theology s past and must represent its future as well

Illuminating Faith Francesca Aran Murphy,Balázs M. Mezei,Kenneth Oakes,2015-01-29

This textbook will give students a clear understanding of the connection between faith and reason Illuminating Faith gives students a clear and accessible introduction to some of the major ways faith and the relationship between faith and reason have been understood within Western Christianity In twenty six short and easy to digest units it covers different accounts of faith beginning with Scripture moving through the history of Christian thought and ending with contemporary views Along the way it explores some of the decisive theological and philosophy accounts of faith such as faith seeking understanding faith and supernatural virtue faith and skepticism and faith and science Yet it also includes significant issues and movements not typically covered in introductory texts such as documents from church councils faith as knowledge assent and trust in the Protestant scholastics faith and the heart in pietism secularized accounts of faith faith after Auschwitz

and faith and liberation The goal of each unit is to introduce students to topical issues surrounding the nature of faith to provide historical background for each topic and to generate further discussion and reflection on the nature of faith The result is a well balanced and unique introduction to various understandings of faith Designed specifically with classroom use in mind Illuminating Faith includes a glossary of words an update to date bibliography and each chapter ends with questions for discussion as well as suggestions for relevant reading material

Ratio et Fides Robert E. Wood,2018-10-09 In the face of growing skepticism and relativism believe in reason is the central message in Pope John Paul II s Fides et Ratio Only by the two wings of reason and faith together can the human spirit soar The current work Ratio et Fides is its philosophical counterpart It is not a watered down introduction but a leading into the heart of philosophic thinking Firmly rooted in the phenomenological description of an ordinary artifact a mailbox the book uses the principles involved in the description to examine key figures in the history of thought We focus on three areas the Soul Morality and God We consider seven thinkers Plato and Aristotle who founded the tradition were taken up by Augustine and Aquinas in developing their theologies Descartes launched the distinctively modern tradition culminating in Hegel s systematic presentation of the whole Western tradition philosophical and religious More recently Heidegger approached that tradition in terms of its hidden ground in the Mystery of Being recalling us to meditative thinking as the secular counterpart to prayer Armed with this background students will be able to approach with profit the Fathers of the Church and major theologians and philosophers past and recent

Symposium of Fides Et Ratio Symposium on Fides et Ratio,2001 **Faith and Reason Today** Varghese J. Manimala,2008 *A Consideration of the Papal Encyclical Fides Et Ratio* Jack Gordon,1999 The Two Wings of Catholic Thought David Ruel Foster,Joseph W. Koterski (s.j.),2003 John Paul s choice to yoke faith and reason together in an encyclical on the twin sources of knowledge caught the world s attention By stressing the two wings of Catholic thought the pope captures in the lively image of a soaring bird the same point that theologians like von Balthasar communicate by calling truth symphonic The beauty of this symphony like the flight of the bird is even better appreciated when one has studied the component parts Knowing the various components only increases our wonder when we hear the music or see the bird take flight The purpose of this volume is to deepen the appreciation for the stereophonic approach to truth that the Holy Father recommends The essays are in three sections 1 doctrinal themes 2 contemporary implications and 3 historical aspects In the first Avery Cardinal Dulles S J discusses the twentieth century answers to a question that has long haunted Christians who felt the attraction of pagan philosophy Can philosophy be Christian Prudence Allen R S M and Joseph Koterski S J then treat two philosophical topics that have been the most affected by centuries of contact with the Christian faith the philosophy of the person and metaphysics David Meconi S J reflects on the Marian framework that is so typical of Pope John Paul II s thought In the second section Bishop Allen Vigneron considers the significance of this encyclical for Catholic intellectual life today David Foster discusses the implications of Fides et ratio for Catholic universities In the final section Koterski reviews

the importance of biblical wisdom literature for the encyclical Michael Sweeney and Timothy Quinn treat medieval philosophy and modern philosophy respectively Finally Cardinal Dulles considers the Church pronouncements on faith and reason from Vatican I to John Paul II David Ruel Foster is Associate Professor of Philosophy in the School of Theology at Seton Hall University Joseph W Koterski S J is Associate Professor of Philosophy and Chair of the Department of Philosophy at Fordham University He is also editor of International Philosophical Quarterly Contributors Prudence Allen R S M St John Vianney Theological Seminary Avery Cardinal Dulles S J Fordham University David Ruel Foster Seton Hall University Joseph W Koterski S J Fordham University David Vincent Meconi S J Jesuitenkolleg Innsbruck Timothy Sean Quinn Xavier University Michael Sweeney Xavier University and Most Rev Allen Vigneron Auxiliary Bishop of Detroit PRAISE FOR THE BOOK The real contribution of The Two Wings of Catholic Thought is to convey very effectively better than the encyclical itself does just why Fides et Ratio ultimately matters inside the Church and for important issues in wider culture Joseph M Incandela Catholic Education There are several remarkable things about this anthology First and best of all it creates a thirst to go to the source to read the actual encyclical It stirs up a desire to go back to its depths and clarity of vision Second it is a remarkable resource If a criterion of a successful theory or idea is its fruitfulness this book would prove the encyclical s worthiness beyond doubt The seeds of insight in the encyclical blossom beautifully here Here we find a treasure chest of essays on the relation of faith to reason Gregory Kerr Ph D The Maritain Notebook Professors and students in programs that study philosophy and theology together could use this book with profit William L Portier The Thomist
