Rationale for Student Growth Objective

(Please include content standards covered and explanation of assessment method.)

Basic facts are the building blocks for all areas of mathematical content. The process of mathematical thinking is hampered when students do not have immediate access to a math fact. In the twenty-first century, solid mathematical skills are a prerequisite for school achievement, college readiness, and success in the workplace. The implication for mathematics is that some of the sub-processes, particularly basic facts, need to be developed to the point that they are done automatically. If this fluent retrieval does not develop, then the development of higher-order mathematics skills—such as multiple-digit addition and subtraction, long division, and fractions—may be severely impaired (Resnick, 1983). Studies have found that lack of math fact retrieval can impede participation in math class discussions (Woodward & Baxter, 1997), successful mathematics problem solving (Pellegrino & Goldman, 1987), and even the development of everyday life skills (Loveless, 2003). Rapid math fact retrieval has been shown to be a strong predictor of performance on mathematics achievement tests (Royer, Tronsky, Chan, Jackson, & Marchant, 1999).

This SGO was designed based on a review of data evidence for 2nd grade on Renaissance Star Mathematic Assessment and Pearson Fall Assessment noting operations as a weakness.

The Common Core State Standards for Mathematics emphasize math fact fluency as critical to student success. Both groups charged with developing the new assessments for the Common Core, the Partnership for Assessment of Readiness for College and Careers (PARCC) and the Smarter Balanced Assessment Consortium (SBAC), are developing sophisticated instruments that, for the first time, will include items specifically designed to gauge math fact fluency.

The Envisions Basic-Facts Test will be administered to all second grade students in the Fall, Winter, and Spring to assess their progress from the original baseline score. Quick Checks will be utilized to assess students progress throughout the year and provide targeted instruction.

COMMON CORE STATE STANDARDS- MATHEMATICS

Operations and Algebraic Thinking

Represent and solve problems involving addition and subtraction.

[CCSS.Math.Content.2.OA.A.1](#) Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.¹
