

Gasland

Discussion Guide

Release Year: 2013

Run Time: 90 min.

MPAA Rating: PG-13

Viewing this movie with students may bring the following issues:

Key Summary

Gasland is a documentary film that explores the fracking industry, a controversial oil and gas extraction process. The film follows several families and their water wells as they discover that their water is contaminated with natural gas. The film is a powerful and thought-provoking work that raises important questions about the impact of fracking on the environment and public health. The film is a must-watch for anyone interested in environmental issues and the future of energy.

This documentary is a key film for students to watch as they learn about the fracking industry and its impact on the environment and public health. The film is a powerful and thought-provoking work that raises important questions about the impact of fracking on the environment and public health. The film is a must-watch for anyone interested in environmental issues and the future of energy.
