The Ultimate Guide to Facebook Audience Research Intaz Ali, 2017-04-30 Since the dawn of time most business owners especially the successful ones have been constantly thinking about how to grow their business If your business doesn't grow it will fail simple as that Learn From the Customers You Have The best potential customers are like your current customers so your job is to find out what your customers like other than you and where people who like that thing hang out Facebook makes it easy Remember they make their money with advertisements so they are more than willing to give you the data you need to buy an effective ad You know this and you've probably used Facebook Audience Insights to locate your customers and target people like them You've placed some ads with moderate success and you'd like to make them more effective and efficient Think Narrow Think Efficient The key to efficiency with Facebook ads is in narrowing your target audience Remember Facebook ads are based on an auction system where you bid for a placement If you define your audience very broadly you'll reach a lot of people and pay for it because everyone is trying to reach those people If you define your audience more narrowly you'll cut your costs by reaching fewer people and if you do it right increase the percentage of them that become customers thus making your ad buy dramatically more efficient Imagine a high

end wedding planner They cost a lot because they re very good and they plan weddings to die for They could advertise at everyone who says they re engaged or they could advertise at everyone who says they re engaged who also makes more than 100 000 a year They aren t going to reach as many people but the people they aren t reaching probably weren t going to buy their services anyway Think About Multiple Slices You probably have a customer base that s a bit wider than wedding planners do They have a clearly and narrowly defined audience but they don t get much in the way of repeat business Your customer base is probably built on more than one demographic category Imagine a neighborhood pizza place They obviously serve people who like pizza subs and related appetizers Who is that Families with young children often find themselves a bit too harried to make dinner Having a pizza or two delivered fills a need Sports fans who gather with friends to watch big games will often need several pizzas and appetizers big orders for a pizza place Teenagers walking home from school will often stop for a slice and a soda as they hang out with friends Young professionals who work way too many hours and don t have time to cook will order something to pick up on the way home from work All of the above are valid market segments that might be a big part of a pizza business depending on where it is and who lives there but they aren t all going to respond to the same ads Your business is probably similar in that you have a number of different demographic segments Don t stop at defining one audience If your data shows a significant audience at any broad demographic category dig down until you can find a narrow one that fits and customize an ad that targets them You might end up with three ads You might end up with twelve but if you ve done this right they will all be efficient We ve barely touched the surface here You could write a book about defining your audiences with Facebook Audience Insights and in fact we have In it we go through everything we said above and in much more detail We also go into things that we couldn t even begin to cover in a short article like this Get it now and grow your business almost immediately [Facebook All-in-One For Dummies](#) Jamie Crager, Scott Ayres, Melanie Nelson, Daniel Herndon, Jesse Stay, 2014-04-28 The A to Z Facebook guide for users marketers and developers alike Facebook has more than a billion users worldwide Whether you enjoy spending time on Facebook every day use it to advertise and market your product or develop Facebook apps this go to guide has something you need Its six minibooks cover creating a personal timeline connecting with others connecting Facebook to other social media building a fan page marketing a business on Facebook and developing Facebook apps It s fully updated to cover the latest Facebook changes including Graph Search mobile apps Timeline enhancements and news feed redesign Facebook has more than one billion active users who share more than 30 billion pieces of content each month More than 37 million brands have Pages on Facebook This complete guide has been fully updated to cover Facebook s latest changes including Graph Search mobile apps for both users and Page managers a redesigned news feed and enhancements to the Timeline Minibooks cover creating a personal timeline connecting with others connecting Facebook to other social media building a fan page marketing a business on Facebook and developing Facebook apps Facebook All in One For Dummies 2nd Edition is packed with helpful information great ideas and
