

COMBINED RADAR ACTIVATION AND ACTIVE INFRARED SAFETY SENSOR

1 Description

The G3 Quick Setup Guide is for the installation and setup of the G3. This document is provided for installers and service personnel who are familiar with the G3. For those who are not completely familiar with the installation and setup of the G3, BEA recommends following the detailed installation and setup instructions found in the G3 User's Guide document number 75-5649.

2 Installation / Wiring / Setup

1 Mount Sensor

- Using scale on template, position drawing of sensor on template 0" to 2" from bottom of header.

NOTE: Flush mount with bottom of header is necessary for all negative IR angles.

- Drill hole marked for wire passage and drill pilot holes for screw mounting. Remove template prior to sensor installation.
- Insert mounting screws approximately halfway in and install the G3 on the screws. When in place, tighten screws to secure to header.

NOTE: Leave cover off until mechanical adjustments are complete.

2 Cable Routing

- With G3 in place, locate the enclosed cable and feed the stripped end through the wire passage hole in the header.
- Leave enough slack to allow connection to the G3 and proper routing of wire around the plastic post.

NOTE: Observe proper routing of the cable as shown. This is to divert rainwater from the G3 if water should run down the cable. Proper routing of the wire also provides easier installation of the cover.

3 Sensor Wiring

- When connecting to a microprocessed control box, the motion output and presence output wires may be connected to separate inputs or may also be connected to a mutual input. Some controls may only have an activation input, while others may have an activation input, as well as a safety (or presence) input.

- The IR pattern may be adjusted by moving the pattern nearer or further away from the face of the door by adjusting the SR angle from +4° to -4°. A counterclockwise rotation of the adjustment screw will move the curtain further away from the door and clockwise rotation will move the curtain toward the door.
