From Abbott Detroit to Zip this unique reference book documents American gasoline powered automobiles manufactured for  
the model years 1906 through 1915 the Brass Era In these explosive early years of automotive history a vast number of  
manufacturers most of which failed within two years produced a range of cars whose sheer diversity is unmatched in later  
times The short corporate lifespans and constant change throughout the industry left a fragmented historical record with  
data about specific models scarce and scattered in later sources Here the basic facts of 4 000 cars painstakingly researched
