

Draw CONCLUSIONS

Readers draw conclusions by piecing together inferences made while reading to come up with a bigger understanding.

- Readers use their background knowledge, along with clues from the text to make many inferences while reading.
- They take multiple clues and inferences made while reading in order to draw conclusions.
- Conclusions that readers can come to are judgements about the characters, setting, or events in a story.

EXAMPLE: Inferences

I think Ani is caring when she brings her friend work she missed while she was sick.

+ I think Ani is trustworthy when she keeps Leslie's secret.

+ My guess is that if any of Ani's friends needed her she would be there to help.

Conclusion

= These events and inferences make me think Ani must be a really loyal and caring friend.

Rebooting Policy

Analysis Peter Linquti,2022-01-18 Rebooting Policy Analysis Strengthening the Foundation Expanding the Scope is a savvy introduction to policy analysis that gets students thinking not just about how decisions should be made but how they are made The text highlights practical skills needed to advise decision makers on matters of public policy in ways that are well informed and solutions oriented while managing limitations like time resources and information In a world that has become increasingly complex and partisan the strength of policy analysis rests not only in its classical academic methods but on the development of a practical analytic mindset

Cognitive Investing

Rich Willis,2011-03 Investors ask the wrong questions Will the stock market rise or fall in the next month What is the best place to put my money right now Will interest rates rise or fall Will the economy improve or get worse What will be the best performing stock during the next year The problem with all of these questions is that the answers are unknowable and will always be so Dwelling on the unknowable is a fruitless quest that will not bring investors any closer to achieving long term financial goals Our fundamental problem is that we are

using the wrong part of the brain Cognitive Investing explains how to make investment decisions using the portion of the brain better suited for the task and answers the questions investors should be asking What is the relationship between the economy and the stock market What is the difference between investing and gambling Why is selling much more difficult than buying How important is diversification Why do natural psychological urges lead us to make poor investing decisions Understanding the answers to these and many more essential questions will profoundly and fundamentally transform the way you approach investing
