**Descriptions With Integrated Text and Examples** Vibhu O. Mittal, 2022-11-30

This book discusses issues in generating coherent effective natural language descriptions with integrated text and examples This is done in the context of a system for generating documentation dynamically from the underlying software representations Good documentation is critical for user

acceptance of any complex system Advances in areas such as knowledge based systems natural language and multimedia

generation now make it possible to investigate the automatic generation of documentation from the underlying knowledge

bases This has several important benefits it is always accessible it is always current because the documentation reflects the

underlying representation and it can take the communication context such as the user into account The work described in

this book compiles results from cognitive psychology and education on effective presentation of examples as well as work on

computational generation of examples from intelligent tutoring systems It also takes into account computational learning

from examples and a characterization of good examples for just this purpose Issues arising from these research areas as well

as issues coming from the author s own corpus analysis of instructional and explanatory texts are discussed in the context of

generating natural language descriptions of software constructs A text planner is used for a hierarchy of communicative

goals Examples are treated as an integral part of the planning process and their interaction with text is represented at all

stages The strengths and limitations of this approach are also discussed Although the focus of this book is the generation of

natural language descriptions a similar set of issues need to be addressed in the generation of multimedia descriptions This

book will be of interest to all researchers working in the areas of natural language interfaces intelligent tutoring systems
