LEADING IN THE AGE OF AI Surinder Lall,2026-03-13 **Leading in the Age of AI** By Surinder Lall We are entering a world where machines can think create and decide yet the real question is not what AI can do but how we choose to lead alongside it In **Leading in the Age of AI** cybersecurity and AI governance expert Surinder Lall draws on more than twenty five years of experience advising global organisations governments and technology leaders This is not a technical manual It is a leadership playbook for a new era one where decisions made today will shape not just businesses but society itself Blending real world case studies with timeless philosophical insight the book explores what it means to lead responsibly in an age

defined by intelligent systems It moves beyond theory to provide practical guidance on navigating risk building trust and making decisions under uncertainty when the pace of change often outstrips regulation and the consequences of failure are no longer contained At its core this book is about accountability It challenges leaders to think differently about power ethics and responsibility in a world where algorithms increasingly influence outcomes From AI governance and security to culture resilience and decision making under pressure it offers a grounded experience driven perspective on what effective leadership now demands This is not a book about the future It is about the choices we are already making and the kind of leaders we must become because of them **Logic** Bernard Bosanquet,1911 **A Guide to Educational Resources,**
