Porcelain, 2021-10-01 *Public Health and Beyond in Latin America and the Caribbean: Reflections from the Field* explores the diverse and complex public health landscape from global to regional to local by considering historical and socio-cultural factors to contextualize the ongoing public health crisis. Drawing on four decades of field experience, research and teaching, Sherri L. Porcelain uses case studies to offer a realistic view of the public health struggle in Latin America and the Caribbean. Chapters in this book will examine the history of public health issues associated with international development, globalization and the international political economy, disasters, diplomacy and security studies, coupled with the changing role of key actors driving the global and regional agendas.
