**Digital Religion, Social Media, and Culture** Pauline Hope Cheong, 2012 This anthology the first of its kind in eight years collects some of the best and most current research and reflection on the complex interactions between religion and computer mediated communication CMC The contributions cohere around the central question how will core religious understandings

of identity community and authority shape and be re shaped by the communicative possibilities of Web 2 0 The authors gathered here address these questions in three distinct ways through contemporary empirical research on how diverse traditions across the globe seek to take up the technologies and affordances of contemporary CMC through investigations that place these contemporary developments in larger historical and theological contexts and through careful reflection on the theoretical dimensions of research on religion and CMC In their introductory and concluding essays the editors uncover and articulate the larger intersections and patterns suggested by individual chapters including trajectories for future research

**The Korean Journal of Policy Studies**, 2015 *Using Emerging Technologies to Enhance Student Engagement* Reynol Junco, Dianne M. Timm, 2008 Today's college students have never known a time when personal computers did not exist They attended K 12 schools where most of their classrooms were equipped with computers Information technology has always been part of their learning process not to mention the impact it has had on the development of their friendships research and writing skills shopping and choice of college or university to attend They expect that institutions of higher education will respond to their inquiries without delay much in the same way that customer service is handled on the Web Student expectations are driving the creation of live Web chats in house social networking sites university wiki and shared virtual spaces Unfortunately higher education faculty and staff in general and student affairs professionals in particular are behind the curve in their use of information technology Student affairs professionals are only starting to become aware that they should learn about the technologies that students have already integrated into their lives It is imperative that student affairs professions understand these technologies and learn how to implement them to enhance student learning build a sense of community increase student engagement facilitate communication This volume examines recent research on how information technology is affecting college student development and explores ways in which institutions are responding to increased demands for using emerging technology in supporting students This is the 124th volume of the Jossey Bass quarterly report series New Directions for Student Services an indispensable resource for vice presidents of student affairs deans of students student counselors and other student services professionals Each issue of New Directions for Student Services offers guidelines and programs for aiding students in their total development emotional social physical and intellectual

**The Host in the Machine** Angela Thomas-Jones, 2010-07-27 This text tackles online social networks by navigating these systems from the birth to the death of the digital self The author begins by examining the creation of a virtual identity in online networks popularized by websites such as Facebook and Myspace The book subsequently explores

how the social self is intrinsic to how social cultural and professional relationships are discovered forged and maintained The text journeys through the popular criticisms of social networking such as employee time wasting bullying stalking the alleged links between social networks and suicide and the decline of a user s public image The dissonance between the performance of the virtual and non virtual selves and the offline issues that can ensue are contextualized by the social nature of these online networks The discussion of this digital life ends by addressing the intricacies of becoming web dead which explores how a user removes their identity with finality from social networks and the entire web

*The Quaker Condition* Pink Dandelion, Peter Jeffrey Collins, 2008 This book focuses primarily on what we have termed the Quaker Condition TM It looks sociologically at the condition of present day British Quakerism This original and innovative collection contributes to several different though obviously connected fields within the study of religion It operates on five levels In the first place the volume is the first to represent substantially the contribution of social science to the study of Quakerism and therefore provides useful comparative material for those whose focus is on other faith groups Second the book focuses largely on British Quakerism and so enriches the pool of resources relating to the sociology of British religion and British culture more generally Third there are very few sociological volumes dedicated to the analysis of a single faith group Fourth the book represents an in depth study of a liberal faith group when liberal religion is the focus of much scholarly debate at present particularly with reference to the secularisation thesis The study of British Quakerism is especially fascinating in this regard given how the group can be described almost as hyper or ultra liberal prefiguring many of the developments which may overtake currently more conservative groups Fifth the volume represents a particularly collective way of working of interest to all those concerned with the methodology of social research with the design and construction of the volume jointly agreed by all the authors Regular meetings of the group and a conference based on these chapters has culminated in a book far more interwoven and layered than a typical edited collection TM
