For topics where you scored lower, read your answers in detail to see what you got wrong and learn from it. For all of the incorrect answers, go back through the content leading up to your test.

For the areas you did well on, you should also want to still review those areas occasionally just to keep your skills sharp. If you score 80% or above on a test, it's worth reviewing. Also, check the answer key to see how they did and what you did wrong. It can help you to see what you did well on and what you did wrong on.
