QUICK HARVARD REFERENCING GUIDE

This quick guide provides examples to help you create references for information sources most frequently used. This follows the Staffordshire Harvard Referencing Style, **except for the capitalization of authors' / editors' names**.

Please Note: Harvard does not dictate any particular style of punctuation. The generally accepted rule when using Harvard is to be consistent in your style and use of punctuation throughout your assignment.

- **In-text Referencing**: involves citing references within the text of your work where you have used ideas or material from other sources.
- **End-text referencing** (also known as your Reference List): includes all materials used in your document. It provides the full information of reference sources necessary for a reader to locate and retrieve them.
