Changes in the 5th Edition: New chapter on arts as text, arts integration and arts education and their place within the context of teaching and learning in multiple subject classrooms in multicultural and multilingual settings; Title I and arts integration focus on student academic achievement, student engagement, school climate, and parental involvement, the 4 cornerstones of Title I; Attention to the National Core Arts Standards as well as their relationship to other standardized tests and arts integration; more and more recent research-based studies integrated throughout; Examples of how to plan arts-integrated lessons using backward design along with more examples from classrooms; Updated references, examples, and lesson plans; units; Companion Website: www.routledge.com/cw/goldberg

The Quest for a Science of Accounting Thomas A. Lee, Peter W. Wolnizer, 2021-03-22 Originally published in 1997, the principal object of the editors in compiling this collection of Robert R. Sterling's work was to make more of his publications accessible in a convenient form to the academic and professional accounting communities and to current and future generations of accounting students. While it is not a complete portfolio of his published work to date, this anthology contains all of Sterling's major articles. Through his long-term quest for a science of accounting, Sterling sought to bring together accounting educators, practitioners, regulators, and researchers in order to identify credible advancements in accounting knowledge, authoritative changes to accounting practice, and transforming improvements to accounting education.
