Uncommon Education Samuel Nyal Henrie, 2009 *Uncommon Education* traces the evolution of Prescott College. In this compelling work Samuel Henrie and others reveal what led to the inception of this special institution, the philosophy behind it, and a rare curriculum that includes adventure education, social and ecological justice, fieldwork, and other hands-on and unique educational opportunities. Sam Henrie has made an immense contribution to higher education by chronicling this grand, ongoing adventure in learning. Prescott College's hands-on, feet-in-the-field approach not only makes far more sense than the cattle calls that pass for education at most places, but its amazing resilience and resurrection is one of the most hopeful stories for our times, a true tale of how good ideas really can win if we never give up.

Alan Weisman, Laureate Professor of Journalism, University of Arizona, retired Professor of Writing at Prescott College, author of *The World Without Us*, *Gaviotas: A Village to Reinvent the World* and other works. [Home-visiting Strategies](#) Terry Eisenberg Carrilio, 2007. A step-by-step handbook for in-home case management from a veteran caregiver. **The Massachusetts register**, 2008. [Moral Matters](#) Barbara S. Stengel, Alan R. Tom, 2006-09-08. Most of us agree that moral issues matter, but how do they fit into the context of our schools? Since *A Nation at Risk*, most educators and policymakers have focused on the academic dimensions of schooling, governed by standards and testing. This timely book explores the ways that committed K-12 educators have attempted to make the moral visible in American schooling over the past 25 years. The authors look at their efforts using an analytic framework that distinguishes five possible ways that the moral and the academic can be related in schooling. Book Features: A useful survey of moral education that enables the reader to arrive at personal judgments about the value and weaknesses of various approaches; Case studies that illustrate the moral education of students, the moral component of teachers' work, and the moral dimensions of school structure; A mixture of philosophical analysis and attention to school practice, suitable for courses and accessible to teachers, administrators, policymakers, and parents. **Minnesota Rules**, 1999. **Grading, Credit, Diploma**, 1987. [Individual Graduation Plan](#), 1994. **Social Justice in the U.S.-Mexico Border Region** Mark Lusk, Kathleen Staudt, Eva Moya, 2012-06-12. The U.S. Mexico Border Region is among the poorest geographical areas in the United States. The region has been long characterized by dual development: poor infrastructure, weak schools, health disparities, and low-wage employment. More recently, the region has been affected by the violence associated with a drug and crime war in Mexico. The premise of this book is that the U.S. Mexico Border Region is subject to systematic oppression, and that the so-called social pathologies that we see in the region are by-products of social and economic injustice in the form of labor exploitation, environmental racism, immigration militarism, institutional sexism, and discrimination, health inequities, a political economy based on low-wage labor, and the globalization of labor and capital. The chapters address a variety of examples of injustice in the areas of environment, health disparity, migration, unemployment, citizenship, women, and

gender violence mental health and drug violence The book proposes a pathway to development Individual Learning Programs for Limited-English-proficient Students ,1984 Provides legal pedagogical and practical guidance for teachers and adminstrastions of limited English proficient LEP pupils May be used as a supplement to the California Administrative Code Title 5 Education regulations pursuant to AB 507 80 **The Standard** ,1912 *Cases in the Administration of Guidance* John Marks Brewer,1929 **Minor Publications and Forms** National Research Council (U.S.),1920
