QUICK GUIDE - CODING CHEAT SHEET

Important Notes:

- The "initial" service is the first administration and primary infusion for the intravenous, parenteral, diagnostic, or chemotherapy service provided for the patient and is reported regardless of the time spent without the service done.
- If an infusion or injection is a subsequent or concurrent infusion, even if it is the first such service within that group of services, then a subsequent or concurrent code from the appropriate section should be reported.
- The time of the service should be billed only upon the administration time for the infusion, service beginning to and concluding the infusion have been included in the infusion service code, and not separately reported. This includes starting the IV and monitoring the patient post infusion.

Injections and Infusions Coding Toolkit HCPro, 2014-05-14 Updated with 2012 CPT changes. Hospitals have long struggled under complicated guidelines for coding injection and infusion services. But those days are over. Now using a simple coding decision tree as your guide, you can master coding for these common procedures without having to master complex coding guidelines. The **Injections and Infusions Coding Toolkit** was developed by the staff at The University of Texas MD Anderson Cancer Center, a high-volume and world-renowned cancer treatment facility in Houston, TX. They designed a tool that makes it easy for staff to capture correct codes at point of service or for coders to use to assign appropriate codes to bill. The toolkit takes the guesswork out of selecting the initial service. Deciding which codes can be reported in combination with other codes. Your toolkit is updated with 2012 CPT changes and includes everything you need to get started today, including 5 copies of the color-coded laminated coding decision tree, 5 copies of pocket-sized cheat sheets to help identify frequently used codes, a CD-ROM with the coding tree files you can customize for your facility, a PDF training guide, and a PowerPoint training presentation.
