Effective Math Interventions Robin S. Coddling, Robert J. Volpe, Brian C. Poncy, 2016-12-21 Building foundational whole number knowledge can help put K 5 students on the path to academic success and career readiness Filling a gap for school practitioners this book presents step by step guidelines for designing and implementing classwide small group and individual interventions for mathematics difficulties Effective procedures for screening assessment intervention selection and progress monitoring are described and illustrated with detailed case vignettes In a convenient large size format the book includes 20 reproducible handouts and forms Purchasers get access to a Web page where they can download and print the reproducible materials This book is in The Guilford Practical Intervention in the Schools Series edited by Sandra M Chafouleas

Embracing Mathematics Peter Appelbaum, with David Scott Allen, 2008-06-30 This alternative textbook integrates pedagogy and content exploration in ways that are unique in mathematics education provoking new ideas for making mathematics education meaningful to teachers at all levels as well as their students

Action Research S. Michael Putman, Tracy Rock, 2016-12-29 Action Research Using Strategic Inquiry to Improve Teaching and Learning is a core text for the Action Research course in Education The proposed text seeks to address the needs of practitioners as it will be primarily written for use within a graduate level action research class It will be oriented towards proactive planning as part of an organized efficient process for developing and conducting an action research study The book will be organized around implementation of the action research process using self regulatory principles which is characterized by four phases task definition goal setting and planning enacting and adapting These four phases will be addressed as the learner considers what action research encompasses and a topic to be studied then proceeds to establish a plan and enact it This overall process is organized as can be seen in the Table of Contents Michael Putnam and Tracy Rock will highlight methods and processes that incorporate formative data that is readily available to teachers facilitating associations between classroom instruction and the action research process The text will also reinforce how action research can improve the teaching and learning process by reinforcing or changing perceptions about the use of informal data including anecdotal notes or observations in the research process
