Significance of Fathers Conrad Riker, *Fathers Built Civilization Now It's Time to Rebuild Them* Are you tired of being shamed for wanting to lead your family Fed up with a society that treats fathers as optional Worried your sons will grow up in a world that demonizes masculinity Expose the hidden war on fatherhood and how to fight back Debunk the toxic masculinity lie with evolutionary proof Discover why strong fathers are civilization's ultimate safeguard Unlock the biological edge that makes men natural leaders Learn how to shield your sons from feminist classrooms Crush the marriage plantation draining your wallet and will Transform from beta to patriarch in a culture that fears you Arm yourself with data leftists don't want you to know If you want to reclaim your rightful role as leader protector and legend buy this book today [Automotive Sensory Systems](#) C. Nwagboso, 2012-12-06 The rapidly growing need for mobility has brought with it a major challenge for improvement in the operation and utilization of automotive systems The economical environmental and safety constraints imposed by the increase in the number of road vehicles and subsequent government policies also require substantial product development through the application of information technology This involves the enhancement of vehicle informatics and telematic systems with additional sensors and systems The advance in the design and development of automotive sensory systems is so rapid that there is urgent need for the experts involved in the technology to work together to provide a reference book for the engineer of today and tomorrow This motivated me to spend two years researching the topics and the basis on which such a book should be written The result is the present compilation of the work of international experts on the state of the art in the field of automotive sensory systems Thus a unique collection has been created for the reference of all those concerned with or interested in the design and development of modern safe and intelligent vehicles Although this book is intended for engineers managers scientists academicians and policy makers students should also find it valuable To meet the requirements of students the basics are explained in simple terms however it is hoped that others will appreciate this approach since most of us are well aware that gaps remain in our knowledge of the elements of our profession *Smart*

Products, Smarter Services Mary J. Cronin, 2010-08-19 We are surrounded by products that have minds of their own Computing power in the form of microcontrollers microprocessors sensors and data storage chips has become so cheap that manufacturers are building connectivity and embedded intelligence into all types of consumer goods These smart products are fundamentally changing both the competitive landscape for business and the daily lives of consumers This book analyzes the evolution of smart products to help managers understand the impact of embedded product intelligence on corporate strategy consumer value and industry competition It describes four different ecosystem strategies for designing and launching smart products the control focused Hegemon the standards focused Federator the high growth and brand focused Charismatic Leader and the disruptive industry Transformer This ecosystem model is then applied to smart products in the automotive wireless energy residential and health industries The book concludes with recommendations for successfully managing smart products and services
