

REACTION PAPER

If there is war in land, there is war in media as well and it is called war propaganda. **War propaganda** is the branch of public relations devoted to manipulating people's attitude towards a war or war in general, rather than engaging in open dialogue.

In the article, "Propaganda war: Weaponizing the internet" by Maria A. Ressa, it is stated that "Weaponizing the internet is a strategy of "death by a thousand cuts" – a chipping away at facts, using half-truths that fabricate an alternative reality by merging the power of bots and fake accounts on social media to manipulate real people." We all know that internet is means of communication but behind these communication, there is good and bad information and propaganda(s) hidden and spreaded by the merging of bots and fake accounts that can cause a change of beliefs and therefore, it may cause a war. It shows that social media now a day create a propaganda that can manipulate people's mind and actions. It removes the society that we expect to have. Propaganda can weaken someone's self-esteem; it can make them feel that they're lives are not worth living for because of the fake news that are attacking them. It kills lives.

We are all living in digital world and lots of negative effects brought by social media, that's why it is very important for us to be a media and information literate so that we can all know the difference between the fallacious information and accurate information. We must responsible enough of our action. Don't be a made-up story teller, instead, let's play hide and seek; let's hide the false information and seek the truth.
