The Amazing Water Cycle Reading Worksheet

Earthwater: Water the greatest source of water on Earth. There are many different types of water. It is the water cycle that allows us to have water in the atmosphere to provide for the growing things.

Water is all around us, and it is necessary for life. It is the water cycle that allows us to have water in the atmosphere to provide for the growing things. It is the water cycle that allows us to have water in the atmosphere to provide for the growing things.

When the sun heats up the water, it turns into a gas called water vapor. This process is known as evaporation. The water vapor then rises up into the atmosphere, where it is cooled by the Earth. This causes the water vapor to condense and form a liquid called precipitation.

As the water vapor rises higher in the atmosphere, it gets colder. The cold air causes the water vapor to condense and form the water droplets in the clouds. This process is called
