

MAKING INFERENCES

Name: _____

JUST BE YOURSELF

Jenny was about to start her first day at a new school. She jumped out of bed early and proudly put on her new school uniform. She couldn't wait to board the school bus and start making friends. When she got on the bus she started showing everyone her cool magic tricks. But all the students moved away from her and sat at front of the bus. When she got to school she tried making lots of jokes in class to get the other students to like her. But the other kids just gave her strange looks or ignored her. So at lunch time she decided to just be herself. She asked the other kids about their weekend and their hobbies. Suddenly a large group had formed around her. Everyone was interested in getting to know the new girl! And that's how Jenny finally made friends at her new school.

Historical Foundations of Educational Psychology John A. Glover, Royce R. Ronning, 2013-11-11 This volume represents a beginning effort to compile a history of educational psychology The project began innocuously enough several years ago when we decided to add mon material about the history of educational psychology to the undergraduate course we were teaching What seemed like a simple task became very complex as we searched in vain for a volume dealing with the topic We ended up drawing on various histories of psychology that devoted anywhere from a few paragraphs to several pages to the topic and on a very few articles addressing the issue We were startled frankly by the apparent lack of interest in the history of our field and decided to attempt to compile a history ourselves As is the case with any edited volume the contributing authors deserve credit for its positive features They uniformly made every effort asked of them and taught us much about educational psychology Any errors or omissions are our responsibility alone
