The Writing Center Director's Resource Book Christina Murphy, Byron Stay, 2012-11-12 The Writing Center Director's Resource Book has been developed to serve as a guide to writing center professionals in carrying out their various roles and responsibilities. It is a resource for those whose jobs not only encompass a wide range of tasks but also require a broad knowledge of multiple issues. The volume provides information on the most significant areas of writing center work that writing center professionals both new and seasoned are likely to encounter. It is structured for use in diverse institutional settings, providing both current knowledge as well as case studies of specific settings that represent the types of challenges and possible outcomes writing center professionals may experience. This blend of theory with actual practice provides a multi-dimensional view of writing center work. In the end, this book serves not only as a resource but also as a guide to future directions for the writing center, which will continue to evolve in response to a myriad of new challenges that will lie ahead.

AiKiDô Winfried Wagner, 2015-06-19 In this volume, nine renowned experts delineate their theoretical or methodological approach of Aikidô in potentiating constructive handling of social conflicts. The authors depict the contribution of the Japanese self-defensive art Aikidô to the theory and practice of conflict transformation. The concept of Elicitive Conflict Transformation Lederach/Dietrich necessarily calls for a revised understanding of applied peace work and a new personal profile of the conflict worker. This is the point where Aikidô and conflict peace work meet.

[Contextualizing the Pedagogy of English as an International Language](#) Nugrahenny T. Zacharias, 2013-09-11 Among the growing number of publications on promoting English as an International Language (EIL), little has been written on the complexities that the EIL paradigm has brought to the teaching and learning of English in the classroom. This edited book seeks to address this deficit in the literature by bringing together narratives of the realities that EIL practitioners encountered in their diverse teaching contexts, including Indonesia, the Pacific Islands, USA, and Australia. The struggles, tensions, dilemmas, and quests of living as EIL practitioners in specific teaching contexts and wider English communities in general are all explored in this book. It explores pedagogical practices, understandings, and challenges surrounding the implementation of EIL pedagogy and principles in contexts where English is traditionally described as a second language or foreign language. This book will be of interest to teachers, academics, and research students working in the areas of ELT, critical applied linguistics, EIL, language and identity, and English language teacher education. It can also be used to complement university-level textbooks in these areas. The book provides theoretical and contextual knowledge for practicing teachers and teacher educators seeking to understand and explore the teaching and learning realities of implementing EIL in the classroom.
