Your hospital uses and EHR for all documentation of all services, including coding and billing. Your town is hit with a tornado and your hospital is badly damaged including the servers, network connections and computers. How do you provide medical records for patients transferred to other facilities for their care? Answer- You obtain copies from your disaster recovery server because HIPAA requires records to be secure and protected you have to have a downtime process in place for facilities with EHR's and you have a disaster recovery plan in place. This may include a disaster recovery company that houses your data and provides you with backup equipment in times of a disaster or you have off-site storage to get copies of needed medical information.
