Global Interactions 1 Second Edition

Steven F. Railsback, Volker Grimm

Global Interactions 1 Second Edition:

Cambridge IGCSE and O Level Geography Fourth Edition Garrett Nagle, Paul Guinness, 2025-04-25 We are working towards endorsement of this title for the Cambridge Pathway to support the syllabuses for examination from 2027. Written and reviewed by experienced authors and teachers, our Fourth Edition Student's Book provides accessible and engaging support for the latest Cambridge IGCSE™ IGCSE 9-1 and O Level Geography syllabuses 0460/0976/2217 for examination from 2027. Revised and updated with a refreshed design, this new edition provides accessible content for all learners, enhanced question practice and support, and a clear route through the updated syllabuses with an improved structure. Trust experienced authors to guide you through the updated syllabus with comprehensive coverage of all the geographical themes, skills, and coursework required. Navigate the syllabus confidently with clear signposting and individual chapters for each topic, along with in-depth guidance on geographical skills and fieldwork. Build and reinforce understanding of all learners with a clear layout, accessible language, and ESL-friendly key terms. Deepen understanding of geographical concepts through up-to-date examples from around the world. Prepare for assessment and check comprehension with new analyses of detailed specific examples, practice questions, knowledge tests, and activities throughout. Consolidate learning with definitions of key terms, topic summaries, additional questions, and images online. Answers to all the practice questions and activities are FREE to download from www.hoddereducation.com/cambridgeextras.

Agent-Based and Individual-Based Modeling Steven F. Railsback, Volker Grimm, 2025-06-03 The essential textbook on agent-based modeling, now fully updated and expanded. Agent-Based and Individual-Based Modeling has become the standard textbook on the subject for classroom use and self-instruction. Drawing on the latest version of NetLogo and fully updated with new examples, exercises, and an enhanced text for easier comprehension, this is the essential resource for anyone seeking to understand how the dynamics of biological, social, and other complex systems arise from the characteristics of the agents that make up these systems. Steven Railsback and Volker Grimm lead students stepwise through the processes of designing, programming, documenting, and doing scientific research with agent-based models, focusing on the adaptive behaviors that make these models necessary. They cover the fundamentals of modeling and model analysis, introduce key modeling concepts, and demonstrate how to implement them using NetLogo. They also address pattern-oriented modeling, an invaluable strategy for modeling real-world problems and developing theory. This accessible and authoritative book focuses on modeling as a tool for understanding real complex systems. It explains how to pose a specific question, use observations from actual systems to design models, write and test software, and more. A hands-on introduction that guides students from conceptual design to computer implementation to analysis. Filled with new examples and exercises, and compatible with the latest version of NetLogo. Ideal for students and researchers across the natural and social sciences. Written by two leading practitioners. Supported by extensive instructional materials at www.railsback-grimm-abm-book.com.

A Companion to the Global Renaissance Jyotsna G. Singh, 2021-07-09 A

Schooling for Sustainable Development: Margaret Robertson, 2012-03-14 This book *Schooling for Sustainable Development A Focus on Australia New Zealand and the Oceanic Region* is the product of passionate interests of teachers scholars and researchers located in diverse parts of the Australasian region Working with their colleagues within local contexts they have conducted research and gathered together information for practitioners and students interested in learning more about sustainable lifestyle practices Some of the work has taken place in remote locations and some has been in within the confines of major cities The Australasian Region brings together people and cultures that link traditional economies to global networks and lifestyles Diverse terrain politics and responses

typify the region Close to Asia there are lingering ties with old European ways and cultural beliefs The major economies of Australia and New Zealand provide the lead with development practices for lesser economies such as Papua New Guinea Fiji and the many island nations scattered throughout the South Pacific This complexity is not easily represented Key issues relate to land ownership mobilities within the region and the gradual dissemination of knowledge skills and wealth The book will provide both reference material and interesting reading for teachers researchers and practitioners in interested in community based perspectives on sustainability We have learnt from each other and hope that others will benefit from our efforts

Research Handbook on the Arms Trade Andrew T.H. Tan,2020-12-25 This comprehensive Research Handbook examines the key drivers of the arms trade mapping the main trends in Asia Europe the Middle East Africa and Latin America It also explores the principal defence markets internationally including the US China India Russia and the UK in greater detail
