*Groupware: Design, Implementation, and Use* Jesus Favela,Dominique Decouchant,2003-09-24 This book constitutes the refereed proceedings of the 9th International Workshop on Groupware CRIWG 2003 held in Autrans France in September 2003 The 30 revised full papers presented together with an invited keynote paper were carefully reviewed and selected from 84 submissions The papers are organized in topical sections on workspaces and groupware infrastructure tailoring groupware evaluation flexible workflow CSCL awareness supporting collaborative processes workflow management systems context in groupware supporting communities       Field Programmable Logic and Applications Patrick Lysaght,James Irvine,Reiner Hartenstein,2004-06-22 This book contains the papers presented at the 9th International Workshop on Field ProgrammableLogic and Applications FPL 99 hosted by the University of Strathclyde in Glasgow Scotland August 30 September 1 1999 FPL 99 is the ninth in the series of annual FPL workshops The FPL 99 programme committee has been fortunate to have received a large number of high quality papers addressing a wide range of topics From these 33 papers have been selected for presentation at the workshop and a further 32 papers have been accepted for the poster sessions A total of 65 papers from 20 countries are included in this volume FPL is a subject area that attracts researchers from both electronic engine ing and computer science Whether we are engaged in research into soft ha ware or hard software seems to be primarily a question of perspective What is unquestionable is that the interaction of groups of researchers from di erent backgrounds results in stimulating and productive research As we prepare for the new millennium the premier European forum for searchers in eld programmable logic remains the FPL workshop Next year the FPL series of workshopswill celebrate its tenth anniversary The contribution of so many overseas researchers has been a particularly attractive feature of these events giving them a truly international perspective while the informal and convivial atmosphere that pervades the workshops have been their hallmark We look forward to preserving these features in the future while continuing to expand the size and quality of the events       **ECOOP - Object-Oriented Programming** Erik Ernst,2007-07-27 The21stEuropeanConferenceonObject OrientedProgramming ECOOP2007 was held in Berlin Germany on July 30 to August 3 2007 ECOOP is the most importantand inspiring forumin Europeandbeyond for researchers practiti ers and students working in that smorgasbord of topics and approaches known as object orientation This topic area was explored and challenged by excellent invited speakers two of which were the winners of this year s Dahl Nygaard award in the carefully refereed and selected technical papers on posters via demonstrations and in tutorials Each of the many workshops complemented this with a very interactive and dynamic treatment of more speci c topics nally panels allowed for loud and lively disagreement Yet it is one of ECOOP s specialqualities that this plethora ofactivities add upto a coherentandexciting whole rather than deteriorating into chaos The Program Committee received 161 submissions this year Only 135 of them were carried through the full review process because of a number of tractions and a number of submissions of abstracts that were never followed

by a full paper However the remaining papers were of very high quality and we accepted25 of them for publication Helping very goodpapers to be published is more useful than having an impressively low acceptance rate The papers were selected according to four groups of criteria whose priority depended on the paper relevance originality and signi cance precisionand correctness and p sentation and clarity Each paper had three four or ve reviews depending on how controversial it was
