It now features rationales for all review questions to promote critical thinking and includes new or expanded sections on health promotion and person centered care; state of the art drug information; and instruction on leadership management, patient education, and population health. Concise and to the point, this resource contains all of the information required for test success, including step by step directives on how to best prepare for the certification exam, a meticulous content review presented according to the test blueprint, and 500 questions with answers and rationales that mirror the type of questions included on the exam. The dissection and analysis of a variety of questions likely to appear reinforce crucial test taking strategies and clues for memorizing information, and tips for prioritizing answers offer additional tactics for exam success. An unrivalled resource for test preparation, the book will also be useful for students and teachers of gerontology and practicing nurses working with older adults. Key Features: Mirrors the new 2015 certification test plan; Provides expanded content on health promotion and person centered care; Offers updated information on new medications and treatments; Presents new content on leadership management, patient education, and population health.
