Good morning everyone, today I am going to talk about my dream job which is being an interior designer. (Slide 1)

Let me start by explaining what an interior designer does. An interior designer is someone who develops design concepts and produces contract documents based on client needs. Interior designers make indoor spaces functional, safe, and beautiful by determining space requirements and selecting essential and decorative items, such as colors, lighting, and materials. They also must be able to draw, read, and edit blueprints. (slide 2)

If you want to be an interior designer you should listen carefully to the client's needs, goals, interests, and budget for the desired project ,creates a sketched design plan of the layout keeping in mind how many people will be using the space ,uses computer software to finalize design plans, calculates estimated cost for projects ,Creates a timeline for the project and project completion ,visit after the project to see if the client is satisfied, seeks out any potential clients & makes offers on new projects.(Slide 3)

There are a lot of important skills and the most important skill in this career is creativity. You'll need to be highly creative. You'll be expected to design spaces for all sorts of clients. Although having a point of view can be an asset, you'll also need to be very adaptable. Also, you will have to focus on both small and big details. Another skill you must have to be an interior designer is communicating with clients, contractors, and suppliers. When you meet and talk with clients, you'll need to be able to discuss their ideas, pay close attention to what they say, and understand their requirements. Initially, communicating well is going to be essential to securing clients and convincing them that you can do a great job. Strong budgeting skills are also necessary, especially since many clients will be looking to do as much as possible for as little money as possible. Furthermore, A good interior designer must be extremely organized in order to complete projects on time and on budget. When work takes too long or costs soar above what a client was promised, you're not likely to find repeat business. Designers need to plan out everything to the day and to the dollar. Although unexpected delays and costs will inevitably pop up, you'll need to allow for these surprises in your plans ahead of time. Also, computer skills are necessary if you want to succeed as an interior designer in today's marketplace. You will need to learn how to use the various design
