Environmental Science Director the Evergreen Institute Center for Green Building and Renewable Energy Daniel D Chiras, Ph.D., 1998-03-21 **Copyright Questions and Answers for Information Professionals** Laura N. Gasaway, 2013

Copyright law is a critical issue for authors, librarians, publishers and information vendors. It is also a complex area with many shades of gray. Librarians continually need to seek answers to questions ranging from the reproduction of copyrighted works for library users through the performance of audiovisual works to the digitization and display of protected works on library websites. This book presents updated versions of the author's copyright columns published in *Against the Grain*, the leading journal in acquisitions librarianship since the late 1990s. The volume is presented in question and answer format. The questions are real, submitted by librarians, educators and other information professionals who have attended the author's copyright law workshops and presentations or submitted them to her by e-mail or telephone. The author has selected the questions and answers that have general applicability. She has then arranged them into logical chapters, each prefaced by a short introduction to the topic. Because it is written in an accessible and clear style, readers may want to review the entire work or they can just access particular chapters or even specific questions as they need them. The volume includes an index to facilitate reference use.
