In Search of Deeper Learning Jal Mehta, Sarah Fine, 2019-04-09 An award winning professor and an accomplished educator Jal Mehta and Sarah Fine take us beyond the hype of reform and inside some of America's most innovative classrooms to show what is working and what isn't. In a world where test scores have been king, this boldly humanistic book offers a rich account of what education can be at its best.

Keep It Real With PBL, Secondary Jennifer Pieratt, 2019-12-19 Let's Get Real About PBL. The book's companion website features an updated guide to help teachers integrate technology into PBL experiences for online and blended learning instruction. Does project-based learning (PBL) feel just out of reach in your secondary classroom? Is project planning an overwhelming project in and of itself? Dr. Jennifer Pieratt, a consultant and former teacher, knows firsthand how challenging designing projects can be, especially for secondary teachers with large caseloads and short class periods to engage in meaningful teaching and learning. In this hands-on interactive guide, Pieratt supports secondary teachers through the iterative process of planning authentic project-based learning experiences. Using backward design, she gives teachers ready-to-use strategies for identifying the best concepts to tackle in PBL experiences, brainstorming realistic projects, facilitating meaningful learning, and creating formative and summative assessments. The book is visually accessible in style and features real-talk soundbites that tackle the challenges to implementing PBL. Tips and resources to support the project planning process. Planning forms to guide you through planning your projects. Key terminology and acronyms in PBL. Exercises to help you reflect and process throughout your project plans. Master PBL planning with this clear, efficient, and easy-to-use guide to creating enriching experiences for your students.

Artificial Intelligence in STEM Education Fan Ouyang, Pengcheng Jiao, Bruce M. McLaren, Amir H. Alavi, 2022-12-29 Artificial intelligence (AI) opens new opportunities for STEM education in K-12, higher education, and professional education contexts. This book summarizes AI in education (AIED) with a particular focus on the research practice and technological paradigmatic shifts of AIED in recent years. The 23 chapters in this edited collection track the paradigmatic shifts of AIED in STEM education, discussing how and why the paradigms have shifted, explaining how and in what ways AI techniques have ensured the shifts, and envisioning what directions next-generation AIED is heading in the new era. As a whole, the book illuminates the main paradigms of AI in STEM education, summarizes the AI-enhanced techniques and applications used to enable the paradigms, and discusses AI-enhanced teaching, learning, and design in STEM education. It provides an adapted educational policy so that practitioners can better facilitate the application of AI in STEM education. This book is a must-read for researchers, educators, students, designers, and engineers who are interested in the opportunities and challenges of AI in STEM education.

Classroom Donna Michele Smith Turner, 2015 Historically teachers have exercised considerable autonomy in the day to day learning that occurs in their classrooms Now it is growing increasingly rare for a teacher to experience this type of professional freedom In response to high stakes testing national and state academic content standards and most recently the common core standards pacing guides are one of the more recent devices schools are using to implement and monitor curriculum The purpose of this research project is to investigate teacher opinion toward these pacing guides An online survey called the Pacing Guide Survey was delivered to secondary regular and special education teachers in core subject areas of mathematics science social studies and language arts The teachers were asked about whether or not they use pacing guides their attitude and comfort level in using pacing guides as well as Information concerning the population of their high school such as demographics enrollment and single or multiple high schools Building level factors such as professional development initiatives methods of curriculum monitoring and pacing guide development and revisions processes teacher factors such as years teaching years using pacing guides confidence in content area and educational background Administrators were also interviewed to form a complete picture of pacing guide development and implementation in the secondary education environment Quantitative data were analyzed using bivariate Spearman s rank order correlation and qualitative data were analyzed using a combination of thematic data analysis and quasi statistical methods Recommendations based on the data collected are Teachers should be provided with the flexibility to address student needs in the classroom Teacher input into pacing guide development implementation and revision process is necessary to ensure that student needs are addressed Team autonomy is key and teacher teams need to be provided with the necessary support structure to provide meaningful learning experiences for their students
