Urban, 1986 *Guidelines for Process Safety in Outsourced Manufacturing Operations* CCPS (Center for Chemical Process Safety), 2000-09-15 In today's competitive economy, companies often augment in-house production by outsourcing chemical reaction processes and distillation, drying, formulating, blending, and packaging operations. While most of these tolling or contracted manufacturing services proceed without incident, recent major accidents have pointed to weaknesses in some tolling arrangements such as reactivity of materials and processes.
