

VOLVO PENTA INBOARD DIESEL D7C TA

146-195 kW (199-265 hp) crankshaft power acc. to ISO 3046, rating 1-2

Reliable and powerful

The D7C TA is a highly reliable, type approved, marine diesel engine. Well-matched engine speed to rated power with excellent torque characteristics along with a variety of power take-off options makes it particularly well suited for displacement and semi-planing workboats in medium and heavy duty service.

Robust and silent

A rigid in-line cylinder block with generously dimensioned crankshaft bearings, together with water-cooled exhaust manifold and turbo, are just some of the design features making this silent running and sturdy engine. The owner of a D7C TA not only benefits from many hours of trouble-free operation, but also enjoys improved onboard comfort.

Economical and service friendly

Price is not the only concern when investing in a new engine. As confirmed by marine professionals, it is the operational costs, such as cost for fuel, spare parts, service and maintenance, that makes the real difference in economy.

The D7C TA is equipped with unit pumps that control the fuel distribution for each cylinder. Six-hole high-pressure injection nozzles optimize the fuel-air mixture. This improved combustion results in

high thermal efficiency, low fuel consumption, reduced exhaust emissions, faster response to load variations and ease in maintenance.

Easily accessible maintenance points and single side servicing contribute to the ease of servicing the engine. Liners of wet and replaceable type, inclined connecting rod caps and replaceable valve seats make even major maintenance possible to carry out on-board.

Safely supported

Volvo Penta has a well-established, well-trained, network of authorized service dealers in more than 100 countries throughout the world. These service centers offer Genuine Volvo Penta Parts as well as skilled service personnel to help you protect your investment.

Meeting new emission standards

The engine is approved for IMO NO_x, EU IWW, CCNR2 and US EPA Tier 2 emission regulations.
