

Explanation

Explanation texts tell how something works.
They are used in all the arts and sciences.
Explanations have five parts to their frameworks.

Title

This is a short statement about the topic.

Definition

Of the thing or process.

Description

Of the parts or elements in the process.

Process

How the thing or process works.

Application

Of the object, machine or process.

How is Food Digested?

The food we eat is broken down and used by our bodies. This breaking down of food is called digestion.

You may have heard your stomach gurgling after you have eaten. The stomach, teeth, tongue and intestines all help to digest food.

When you chew your food, digestion begins. The food is pushed by the tongue to the trapdoor at the back of the throat called the oesophagus. It then moves to the stomach where digestive juices make it smaller. In the small intestine, the goodness is 'soaked up'. Finally, water is taken out in the large intestines.

The goodness that is left can now be carried around the body by the blood to be used for energy, repair and growth!
