

About Daily Geography Practice

Daily Geography Practice is based on the eighteen National Geography Standards and is designed to support any geography and social studies curriculums that you may be using in your classroom.

36 Weekly Sections

Teacher Page

- An answer key for the week is included for easy reference.

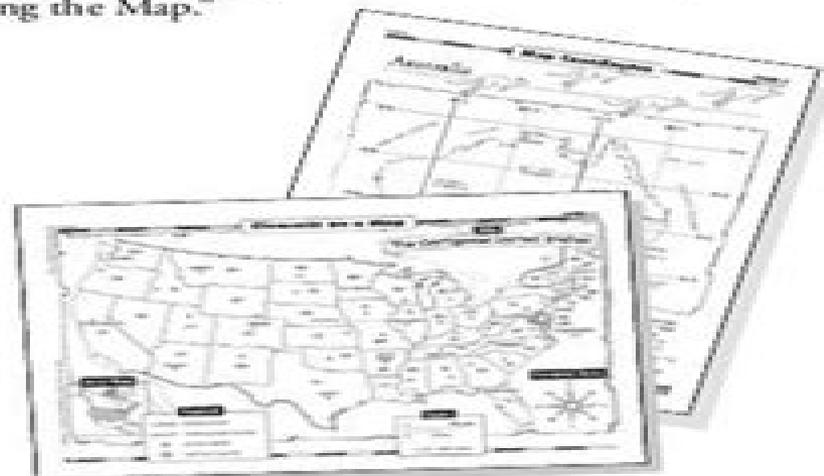

- The national geography element, standard, and skill are included.
- Background information helps the teacher introduce the geography skill.
- Vocabulary words and definitions are given.

Please note that the skills in this book should be taught in direct instruction, and not used as independent practice. Teachers are encouraged to use other reference maps and globes to aid in instruction. Most of the questions can be answered by studying the map or globe. There are some questions, however, that specifically relate to the lesson given by the teacher at the beginning of the week. Review daily the information presented in "Introducing the Map."

Map Page

A map illustrates the geography skills emphasized during the week. Use the map to aid in whole-class instruction, or reproduce a copy for each student to use as a reference for the questions.
