Auténtico Robert Rodriguez, Andrés T. Tapia, 2021-07-06 America has an urgent need for Latino and Latina executives This book identifies a path to uplift and amplify their representation in leadership Latinos and Latinas will account for a third of our workforce by 2050 yet they make up only 5 percent of senior roles in corporate America Dr Robert Rodriguez and Andrés T Tapia call this low percentage of

Latino and Latina corporate executives today the 5 percent Shame Inspired by Price M Cobbs s seminal work on the secrets of successful Black leaders this book seeks to understand the impact on Latinos and Latinas of the external forces of conscious and unconscious biases and of the internal forces of whether to assimilate or double down on their cultural identities in their quest to get ahead The second edition features a new foreword by Henry Cisneros former secretary of the Department of Housing and Urban Development as well as updated statistics and graphs to represent how America s career landscape for Latinos has and has not changed and how to ensure Latinos can rise to their fullest potential Using insights from in depth interviews with twenty highly successful boomer Latino and Latina executives and focus groups with dozens of Gen X and millennial leaders the authors have captured lessons about how these individuals chose their career paths addressed challenges and seized opportunities The discussions are interpreted through the lenses of the authors different personal experiences as Latino leaders in corporate America and synthesized as a guide for future leaders *Handbook of Race-Ethnicity and Gender in Psychology* Marie L. Miville,Angela D. Ferguson,2014-02-06 Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example *Counseling the Culturally Different Sue Handbook of Multicultural Counseling Poterotto et l* 2009 and *Handbook of Multicultural Counseling Competencies Pope Davis Coleman* 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology *Handbook of Counseling Women Counseling Men* with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today s world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e g focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations
