

DUET Group Management Information Report

For the year ended 30 June 2014

Introduction

This Management Information Report ("MIR") contains financial information including unconsolidated cash flows, proportionate earnings, group gearing and energy utility management accounts for DUET Group ("DUET") for the year ended 30 June 2014.

DUET's boards have reviewed and approved the MIR and endorse its release as a supplement to the full year Financial Report.

Ernst & Young ("EY") was engaged to perform an audit of the non-IFRS financial information as presented in the MIR in accordance with the Basis of Preparation described below. EY conducted its audit in accordance with Australian Auditing Standards. As a result of the audit, it is EY's opinion that the non-IFRS financial information of DUET as presented in the MIR for the year ended 30 June 2014 is prepared, in all material respects, in accordance with the Basis of Preparation.

Basis of Preparation

DUET's Management Information Report ("MIR") has been prepared in accordance with the basis of preparation as described here. Figures within the MIR are initially derived from the DUET full year Financial Report which has been prepared in accordance with International Financial Reporting Standards. Departures from that basis are described as follows:

- **Proportionate Earnings:** Proportionate earnings have been adjusted from the consolidated statutory income statement to provide a view of DUET's results based on the relevant interests that DUET held during the year based on the time weighted average beneficial ownership percentage of each of its energy utility businesses. It excludes items which are not reflective of cash inflows and outflows in the current reporting period. A reconciliation of Proportionate EBITDA as presented in this MIR to the consolidated statutory income statement is provided in Appendix 3 to this MIR.
- **Unconsolidated Cash Flows:** Unconsolidated cash flows have been adjusted from the consolidated statutory Cash Flow Statement. The purpose of unconsolidated cashflows is to provide a view of the net cash flows received by DUET's stapled entities from which investments and distributions are made. A reconciliation of unconsolidated cash flows as presented in this MIR to the consolidated statutory cash flow statement is provided on page 6 of this MIR.
- **Proportionate Gearing:** Proportionate gearing has been calculated as proportionate net external debt divided by proportionate regulatory asset base. Net external debt has been adjusted to remove the impact of fair value and foreign currency adjustments, capitalised borrowing costs, finance lease liabilities, debt balances payable to non-controlling interests and cash on hand (defined as cash and cash equivalents and short term deposits). The distribution declared and payable by DUET has been included in debt. Regulatory asset bases are used for United Energy, Multinet Gas and DBP, based on management calculations. As DDG assets are not regulated, total statutory non-current assets has been used as a proxy. Net external debt and regulatory asset base has been adjusted on a proportionate basis at the relevant DUET ownership percentage of each of its energy utility businesses at period end.
- **Energy Utility Management Accounts:** Regulatory asset bases (RAB) are used for United Energy, Multinet Gas and DBP, based on management calculations. As DDG's assets are not regulated, total statutory non-current assets has been used as a proxy for RAB. Drawn balances for net external debt borrowed in US dollars are shown at the hedged rate for hedged US debt. Non-financial information is based on management reports for each energy utility and are not derived from IFRS information.
- **Rounding:** Due to rounding, certain totals presented in this MIR may not be the exact sum of the individual line items they comprise.
