Manning the Nation. Father Figures in Zimbabwean Literature and Society Kizito Z. Muchemwa, Robert Muponde, 2007 Gender studies in Zimbabwe have tended to focus on women and their comparative disadvantages and under privilege Assuming a broader perspective is necessary at a time when society has grown used to arguments rooted in binaries colonised and coloniser race and class sex and gender poverty and wealth patriotism and terrorism etc The editors of Manning the Nation recognise that concepts of manhood can be used to repress or liberate and will depend on historical and political imperatives they seek to introduce a more nuanced perspective to the interconnectivity of patriarchy masculinity the nation and its image The essays in this volume come from well respected academics working in a variety of fields The ideals and concepts of manhood are examined as they are reflected in important Zimbabwean literary texts However if literature provides a rich vein for the analysis of masculinities what makes this collection so interesting is the interplay of literary analysis with chapters that provide a critical examination of the ways in which ideals of manhood have been employed in for example leadership and the nation as a justification for violent engagement in the field of AIDS and HIV etc Manning the Nation Father figures in Zimbabwean literature and society sets the stage for a fresh and engaging discourse essential at a time when new paradigms are needed

Representations of Jews in Late Medieval and Early Modern German Literature John D. Martin, 2006 It is commonly held that medieval Christians viewed medieval Jews in exclusively negative terms This is certainly the dominant opinion in much twentieth century scholarship and it is not wholly without justification It is however an opinion that does not accurately reflect the breadth of medieval German Christian thinking about medieval German Jews Drawing on Passion plays hagiographical narratives and didactic literature this monograph reveals a hitherto largely unacknowledged diversity in medieval German representations of Jews In many of the best attested texts from the late medieval and early modern periods Jews appear in German literature as sympathetic even morally exemplary figures
